SUMMARY

Final-year B.E. Computer Science and Engineering student with a strong foundation in full-stack web development, programming, data structures and algorithms, database management, and artificial intelligence. Proficient in Python, Java, React.js, Node.js, MongoDB, and machine learning, with hands-on experience building scalable web applications and AI-powered solutions. Eager to leverage technical and problem-solving skills to contribute to innovative software projects while continuously learning and adapting to emerging technologies. Dedicated to delivering impactful results and supporting organizational growth through collaboration and technical excellence.

EDUCATION

Computer Science and Engineering **Sep 2023 - Present**

Government College of Engineering, Chettikarai, Dharmapuri, TamilNadu.
3rd Year - 8.44 CGPA

INTERNSHIP

EBPL – GenAI Intern **8th Oct 2025 - 23rd Oct 2025**

Completed a Generative AI internship focused on prompt engineering, AI tools, and practical AI application development, enhancing skills in modern AI technologies and workflows.

Labmentix Web Development Intern **15th Dec 2025 - 16th Feb 2026**

Built and enhanced web applications using modern development technologies, collaborated on multiple projects, and applied software development best practices to deliver efficient and user-friendly solutions.

PROJECTS [Check it Out]

Blogging Platform - Node.js, Express, MongoDB, JavaScript, HTML/CSS [Repo Link]

- Developed a full-stack blogging web app with secure user authentication using hashed passwords and JWT-based authorization.
- Built core features allowing users to create posts and browse all blog posts using MongoDB with Mongoose for efficient data handling.

Face Recognition System - Python, Tkinter, CSV [Repo Link]

- Built a real-time face recognition system using Python and OpenCV that detects and recognizes faces from live video feed (or images), leveraging facial detection + recognition pipelines.

AI ChatBot - NLP, Ollama, AWS Textract, Reactjs, Supabase [Repo Link]

- Developed an AI-powered academic chatbot using NLP and AWS Textract to provide instant access to syllabus, timetables, and academic information.

SKILLS

- **Technical Skills:** Java, Python, C, Front-End Development(HTML, CSS, JS),UI & UX, Project Management.
- **Tools :** VS Code, Postman, MongoDB, Git & GitHub, CodeBlocks, Eclipse, Figma.
- **Soft Skills:** Communication, Team Collaboration, Leadership, Problem Solving, Time Management

CERTIFICATES & ACHIEVEMENTS [Check it Out]

1. LinkedIn Project Management Foundation Certification
2. NPTEL Programming in Java Certification
3. EBPL - Internship Completion Certificate on Gen AI by AdroIT Technologies
4. Labmentix Web Development Internship Completion Certificate
5. DharmaHack - Hackathon Special Price Winner Certificate
6. NPTEL Elite - Programming in Java
7. openpools.in Doppleganger Hackathon participation certificate
8. TATA - Gen AI Course Completion Certificate
9. HackerRank - Java (Gold Rank)
