CAREER OBJECTIVE

Final-year B.E. Computer Science and Engineering student with a strong foundation in software development, programming, data structures and algorithms, and database management. Proficient in Python, Java, JavaScript, React.js, Node.js, and MongoDB, with hands-on experience developing full-stack web applications and building efficient, scalable software solutions. Eager to apply technical expertise, problem-solving abilities, and a passion for coding to develop reliable applications, contribute to software engineering projects, and grow as a software developer.

EDUCATION

B.E. Computer Science and Engineering **Sep 2023 - May 2027**

Government College of Engineering, Chettikarai, Dharmapuri, TamilNadu.

4th year - CGPA : 8.27 (upto 6th semester)

INTERNSHIP

Eagle-HiTech Softclou Pvt Ltd – Junior Software Trainee **1st June 2026 - 30th June 2026**

Worked on the Movie Ticket Booking System project, designing and developing software based on project requirements and specifications. Gained practical experience in Full Stack Development, software design, and implementation.

Labmentix Web Development Intern **15th Dec 2025 - 16th Feb 2026**

Built and enhanced web applications using modern development technologies, collaborated on multiple projects, and applied software development best practices to deliver efficient and user-friendly solutions.

EBPL – GenAI Intern **8th Oct 2025 - 23rd Oct 2025**

Completed a Generative AI internship focused on prompt engineering, AI tools, and practical AI application development, enhancing skills in modern AI technologies and workflows.

PROJECTS

AI-Driven Land Litigation Intelligence System – Python, React.js, FastAPI, Supabase, Machine Learning, GIS

- Developed an AI-powered land litigation system integrating land records, survey number-based court case retrieval, legal document summarization, dispute classification, litigation risk prediction, and GIS-based visualization.

Face Recognition System - Python, Tkinter, CSV

- Built a real-time face recognition system using Python and OpenCV that detects and recognizes faces from live video feed (or images), leveraging facial detection + recognition pipelines.

AI ChatBot - NLP, Ollama, AWS Textract, Reactjs, Supabase

- Developed an AI-powered academic chatbot using NLP and AWS Textract to provide instant access to syllabus, timetables, and academic information.

TECHNICAL SKILLS

- **Programming :** Java, Python, C
- **Frontend :** HTML5, CSS3, JavaScript, React.js, Tailwind CSS
- **Backend :** Node.js, Express.js
- **Databases :** MongoDB, Supabase, MySQL
- **AI/ML :** NLP, Generative AI, Ollama, AWS Textract, OpenCV
- **Cloud :** AWS, Google Cloud
- **Tools :** Git, GitHub, VS Code, Postman, Android Studio, Figma, Canva
- **Soft Skills :** Communication, Team Collaboration, Leadership, Problem Solving, Time Management, Project Management

CERTIFICATES & ACHIEVEMENTS

1. LinkedIn Project Management Foundation Certification
2. NPTEL Elite - Programming in Java
3. EBPL - Training Completion Certificate on Gen AI by AdroIT Technologies
4. Labmentix Web Development Internship Completion Certificate
5. DharmaHack - Hackathon Special Price Winner Certificate
6. openpools.in Doppleganger Hackathon participation certificate
7. HackerRank - Java (Gold Rank)
8. TATA - Gen AI Course Completion Certificate
9. #962/1983 - HackerRank Orchestrate August - 26
